VOYAGE'S APPROACH

Visioning		Define goals and priorities, aligning PMO operations with organizational strategies.
Gap Analysis		Identify inefficiencies, resource constraints, and process bottlenecks.
Tailored Framework		Leverage Agile, Waterfall, or hybrid methodologies based on client needs.
Roadmap Design		Create phased implementation with milestones for tracking progress.
Execution and Training		Develop frameworks, train, and ensure alignment with stakeholders.
Continuous Improvement		Implement feedback loops and refine practices for long-term success.

COST AND VALUE PROPOSITION

COST SAVINGS: Implementing an optimized PMO can reduce project delivery costs by up to 25%.

EFFICIENCY GAINS: Improved governance and resource allocation result in faster project completion.

STRATEGIC ALIGNMENT: Ensures that projects deliver maximum value aligned with organizational goals.

RISK MITIGATION: Enhanced tools and metrics reduce project failure rates significantly.

CASE STUDY

"Voyage's approach transformed our PMO operations, delivering measurable efficiency improvements and ensuring our projects were aligned with organizational goals. The tailored methodology and expert guidance were invaluable."
- Senior Director, Energy and Utilities

1. CHALLENGE

Client had fragmented governance and inconsistent project delivery across capital and technology initiatives.

2. SOLUTION

Voyage created a PMO for both Capital Projects and IT Operations.

- Developed a tailored Agile-Waterfall hybrid framework.
- Introduced governance models with defined roles, responsibilities, and KPIs.
- Delivered training to align with strategic objectives and embed best practices.

3. OUTCOME

Increased project delivery efficiency, enhanced project tracking, and positioned the client for future scalability.
