

WHY USE VOYAGE FOR PROGRAM OFFICE?

*We learn the “recipe” of what works for the client,
and we have industry knowledge to provide the missing “ingredients”.*

WE HAVE FOUND THAT CLIENTS ACROSS
MULTIPLE INDUSTRIES CONTINUE TO
RUN INTO THE SAME ISSUES:

Big consulting firms are slower, way too
expensive and use less experienced staff

Staffing agencies don't understand the business
well enough to be a reliable strategic partner

FTE hiring isn't fast enough, nor is it always the
right long-term business decision

MARKET PERSPECTIVE IN 2022

Leaders have day jobs and
often don't have the right
plan or enough time to
drive change

Effective governance
and centers of excellence
are necessary to
get things done

PMO groups need highly
specialized resources

Staffing shortages and
turnover driven by the
Great Resignation

Business process design
needs to be aligned with work
processes, resource allocation
and organizational goals

Transformation requires
the right people to build
processes and implement
technology
